Degree: Associate of Arts-Field of Study Music
(AA-FOS)

Visual Performing Arts & Kinesiology

Program Description: The Associate of Arts degree in Music is intended to match, within the constraints of the Core Curriculum, the course of study for the first two years of a typical music program at a four-year college or university. It also provides the flexibility for students desiring only an associate degree to specialize the program to individual interests.

*Use this **Program MAP** as an advising guide to choose courses with your advisor and track progress toward milestones and completion of degree program. The map provides students a suggested course sequence to timely program completion.*
