REPORTS, ANNOUNCEMENTS, AND OTHER NON-ACTION ITEMS:

ITEM 9. REPORTS:

- BUILDINGS AND GROUNDS

Mr. Richard O’Malley reviewed current building projects and timelines for the Board (a copy of the written buildings and grounds report is attached and made a part of these Minutes). He advised furniture and equipment move-in for the Texas A&M Health Science Center Campus started on July 18th and faculty are scheduled to move in the first week of August. Mr. O’Malley responded to questions from the Board.

Bryan Campus:

- Allied Health HSC Campus - The project is substantially complete and we have started the move-in process. Furniture is scheduled to start arriving on July 18th and equipment move-in will be coordinated with the furniture supplier. The offices will be moved starting August 8th.
- Building E (Student Center) - This project has been put on hold for the summer, although we have incorporated some very minor wall adjustments in this space to provide a more user-friendly space for the students.
- Building H (current Allied Health Building) - The Building H project bid on May 26th and we received bids from seven contractors. Madison Construction from Bryan, Texas, was the low bidder and a contract has been awarded to Madison Construction for $437,100.00 for this project. This project is under construction and progressing very well with a scheduled completion date of August 19th. This project will create the use of nine new classrooms for the Humanities, Natural Sciences, Mathematics, Fine Arts, Social Science, Fire Science and Vet Tech programs. The design of these improvements was completed in-house by the facilities department, which provided both a savings from the design fee perspective and a savings from the time perspective to meet these deadlines. Another in-house area that needs to be complimented in regards to this project is the coordination skills of both Elaine Abshire and Sami Rahman who have both carefully coordinated the move-out and move-in schedules of the Allied Health group with the contractor and the new tenants that will occupy the space.
- Central Plant - Chiller #2 replacement project bid on May 26th and we received bids from six contractors. ACO Mechanical from Bryan, Texas, was the low bidder and a contract has been awarded to ACO Mechanical for $586,515.00. The project is under construction and is scheduled for completion in late September. With chiller #2 not operating at this time, a rental chiller will be installed as part of this contract to allow the College to continue making ice for use during the day, as well as, keeping our agreement with the local utility provider not to use electricity during the peak hours for air conditioning. Additionally, ice tank #6 will be replaced as a part of this contract, which will return the central plant to approximately 80% capacity of ice availability for use. During FY2011-2012, the Central Plant will need a plan to correct ice tank #3 and improve the controls to further enhance the plant efficiencies and lower the electrical usage.

Brenham Campus:

- Student Housing - The project is progressing very well, although we are still on a very tight schedule. The projected substantial completion date, at this time, is August 1st and the certificate of occupancy should be issued August 15th. The furniture is scheduled to be moved in August 17th and completed by August 24th. Students arrive and can start moving into the space August 26th. According to the contractor and the architect, the schedule for move-in is still possible. The interior of the building is completed by “wings” and the east
wing is the furthest along with millwork, painting and doors installed in each of the rooms. The west wing is ready for the painting or mill work and the south wing is still in the drywall and electrical installation phases. The elevator will be installed as soon as the City extends the permanent power to the building. On the exterior, the building is taking shape with brick installation, painting, parking lots, retaining walls and the plaza area all on schedule to be completed by the end of July.

- Central Plant - The pumping capacity of chilled water loop serving zone 3 will be increased with the addition of a larger pump that will be able to provide the water flow required to serve the new dorm, as well as, provide better water flow for the Administration Building. Additionally along this loop, other buildings (Melcher Hall and the Arts and Sciences Building) will have some minor piping or pump modifications to better regulate the chilled water flow. Next FY 2011-2012, we will need to start an improvement plan for the buildings on chilled water loop zones 2 & 3 by adding controls and frequency drives to better regulate the water flow. These improvements will enhance the efficiencies of the chilled water system and lower our overall electrical utility usage.

- Band Hall - The Band Hall project has been awarded to Collier Construction. The project is scheduled for completion of the existing building on August 1st and for the new construction on August 15th. Move-in will be coordinated to meet these dates and the building will be ready for fall classes.

- Agriculture Shop Facility - Complete.

- The Ag Classroom Building - The project has been awarded to Collier Construction. The project is under construction. The project is moving along very well and should be on schedule for completion in August.

**ENROLLMENT AND HOUSING OCCUPANCY FOR SUMMER II**

Ms. Julie Maass reviewed final enrollment numbers for Summer II, which were down 1.5% from Summer II 2010 (a copy of the enrollment numbers for Summer II 2011 is attached and made a part of these Minutes). Ms. Maass responded to questions from the Board.

Ms. Ann Weir reviewed housing occupancy for Summer II, which is up above last year (a copy of the housing occupancy report for Summer II 2011 is attached and made a part of these Minutes). Ms. Weir advised the waiting list for fall housing is over 200.

**EMERGENCY MANAGEMENT AND SAFETY**

Mr. Gary Waites gave an overview of Blinn College’s Emergency Management and Safety Program (a copy of the presentation is attached and made a part of these Minutes). Mr. Waites reported an Incident Management Team has been assembled and trained, an Incident Report System has been established to address safety issues, a Hurricane Procedure has been created, and various training sessions have taken place. Mr. Waites and Chief Free are actively conducting a detailed self safety and security audit. Mr. Waites responded to questions from the Board.

**PRESIDENTIAL SEARCH**

Mr. Borchardt updated the Board on the presidential search process. Currently, there have been 19 applications submitted for the position. Applications will be accepted until July 29th. Mr. Borchardt responded to questions from the Board.
